What is Child-Inclusive Family Mediation?

Child-Inclusive Mediation allows parents to hear, and meaningfully consider, their children's experiences of separation and relationship in a highly supportive, resolution focused environment.

Our highly trained Child Experts work with our skilled and Accredited Family Mediators to deliver valuable and transformative support to families experiencing separation.

Why Choose Child-Inclusive Mediation?

A child-inclusive process in Family Mediation can result in the following immediate effects:

- Children report positive outcomes for the family;
- Children's emotional responses improve;
- Reduction in conflict;
